NATURAL SOURCING INTRODUCES ORGANIC BRAZIL NUT OIL

Raw and filtered oil is highly nourishing, rich in essential fatty acids, minerals, vitamins

Oxford, CT (July 1, 2014) - Today, Natural Sourcing, LLC, introduced the versatile, nutritive Organic Brazil Nut Oil (Bertholletia Excelsa Oil) into its growing catalogue of more than 500 natural ingredients. The nut oil is rich in nutrients, including Vitamins A (retinol) and E.

"Organic Brazil Nut Oil is growing in popularity as an ingredient for skin and hair care, thanks to its ability to nourish aging skin, protect the skin from moisture loss, and add shine to dry, damaged hair," said Kibby Mitra, Chief Executive Officer of Natural Sourcing. The company is a premier supplier of high quality, natural and organic ingredients to the personal care industry.

"This highly nutritive oil contains an array of fat-soluble vitamins, minerals, antioxidants, and essential fatty acids," she added. *"Paired with its light texture and mild, sweet, nutty scent, Organic Brazil Nut Oil's unique nutrient profile makes it a dynamic ingredient ideal for use in a wide variety of spa, skin, lip and hair care formulations."*

Organic Brazil Nut Oil is cold pressed from the nuts of the Brazil nut tree. Brazil nuts consist of approximately 67% oil, which Brazilian natives utilize in cooking and within skin and hair care applications. Due to its rapid absorption by the skin, it is especially suited for use in anti-aging creams, dry skin formulations, sensitive skin care, dry/damaged hair products, and lip balms.

Organic Brazil Nut Oil Properties:

- Light Texture
- Quick Absorption
- Highly Moisturizing
