Cosmetic and Personal Care Ingredient Specialists

SALTS

For centuries, people have bathed in the mineral-rich seas of the world to help promote good health and beautiful skin. Ancient records show that people traveled many miles to bathe in salt waters such as the Dead Sea, the Black Sea, the Red Sea, the Blue Lagoon and the famous mineral springs around the world. The mineral-rich, salty waters have been known to help alleviate even the most severe cases of dry skin disorders. Salt water bathing stimulates circulation, hydrates the skin, increases moisture retention, promotes cellular regeneration, detoxifies the skin, and helps heal dry, scaling, irritated skin. It also reduces inflammation of the muscles and joints, relaxes muscles and relieves pain and soreness.

Natural Sourcing carries a selection of the most exotic, spa grade salts from around the world. Our salts are all naturally harvested from mineral-rich waters, and they possess the finest mineral compositions for use in skin care. All grain sizes are suitable for bath salt and soak formulations. Our fine grain salts are perfect for exfoliating salt scrubs.

Black Sea Pink Salt
